The Customer also undertakes to join, at Alwaysdata's request, any proceedings issued against Alwaysdata and to hold Alwaysdata harmless from and against any awards that may be made against it in the proceedings. Accordingly, the Customer undertakes to be personally responsible for any claims and/or proceedings, regardless of their form, purpose or nature, that maybe issued against Alwaysdata, connected to the Customer's obligations under this Contract.

The Customer unconditionally agrees that in the event that Alwaysdata's liability is directly or indirectly incurred in its capacity as a technical intermediary by any person or entity whatsoever, Alwaysdata reserves the right to take any administrative and/or technical steps to allow it to protect its interests and/or fulfil its obligations.

10.3. Exclusion of Liability

Alwaysdata cannot guarantee the availability of the Customer's Website and/or access to the Customer's Data from the Server in the following situations:

- in the event that the Customer exceeds the maximum storage space made available to the Customer on the Server (as stated in the Purchase Order).

Alwaysdata may not be held liable for any minor problem affecting the use of the Software made available to the Customer, as a result of which:

In such circumstances, Alwaysdata disclaims all liability for any downtime of the Customer's Website and/or if the Customer is unable to access its/his/her Data.

12. Suspension - Termination - Expiry

12.1. Unless otherwise provided in these Standard Terms or the relevant Special Terms, if the Customer fails to fulfil any one of its/his/her obligations, Alwaysdata reserves the right to suspend the Service, by giving a period of prior notice that is reasonable in the relevant circumstances, until the Customer has fulfilled its/his/her obligations in full.

12.4. Unless otherwise specifically provided, if a Party fails to fulfil its/his/her obligations, the other Party may terminate this Contract by letter sent by registered post with acknowledgement of receipt, fifteen (15) days after formal notice with which the defaulting Party fails to comply. In such a case, the Contract will be terminated, without prejudice to any damages that may be claimed from the defaulting Party and the Customer may not claim any refund for the sums he has already paid.

- i) Suspend the Service and/or access to the Admin Area at any time - merely after sending notice by Email - until the Customer complies with its/his/her obligations, and/or,
- ii) Give the Customer formal notice to comply with its/his/her obligations, and/or,
- iii) Terminate this Contract, as of right, without prejudice to any damages for direct and/or indirect losses that Alwaysdata may claim.

Alwaysdata also reserves the right to sue the Customer for compensation for the loss caused to Alwaysdata by the Customer.

The Customer will not be entitled to any compensation for any suspension, termination or deactivation of

the Service on the ground of the Customer's breach, in particular in the circumstances set out in this clause, and will not be entitled to any refund.

13. Backup and Deletion of the Customer's Data - Warning

THE CUSTOMER SHALL BE RESPONSIBLE, WITHIN THE PRESCRIBED TIME - NO LESS THAN 24 HOURS BEFORE THE DEADLINE - FOR RETRIEVING ALL OF ITS/HIS/HER WEBSITE AND DATA DIRECTLY. FAILING THIS, ALWAYSDATA WILL PERMANENTLY DELETE THESE ITEMS WITHOUT INCURRING ITS LIABILITY, IN ANY MANNER WHATSOEVER.

Pursuant to Article L. 221-18 of the French Consumer Code, Consumer Customers are informed that they have a period of 14 (fourteen) days, commencing on the date on which they register on the Alwaysdata website, in which to exercise their cancellation right, without having to give any reasons and without any charge.

To this end, Consumer Customers must inform Alwaysdata of their decision to cancel by filling in the cancellation form and then sending it to Alwaysdata before the end of the period of fourteen (14) days, or by sending it any other clear declaration expressing the Customer's decision to cancel within the same period.

The cancellation form or the clear declaration of cancellation must be sent to the following address:

Alwaysdata shall refund to the Consumer Customer the fees paid for his/her registration within the statutory maximum period of fourteen (14) days, commencing on the date of receipt of the decision to cancel notified by the Consumer Customer.

Pursuant to Article L. 221-28 of the French Consumer Code and to the extent that the contractual relationship falls within the scope of the provision of an electronic Service, Consumer Customers will have no right to cancel if they start using the Service before the end of the period of fourteen (14) days following registration.

Accordingly, the Consumer Customer expressly waives his/her right to cancel in such a case, by the electronic acceptance of these Standard Terms and the Special Terms associated with the Services selected by the Consumer Customer.

15. Force majeure

Any event beyond a Party's control, that the said Party could not reasonably be expected to have made provision for, will constitute a force majeure event and will accordingly suspend the Parties' obligations. The Parties contractually agree between them that any damage originating from or caused by the following will be treated as a force majeure event, without limitation: a strike (telecommunications operators, registries, NIC and other authorities etc.), power cuts (for example, electricity cuts), a failure in the telecommunications network used by Alwaysdata and/or any networks replacing it, a civil or international war, riots or civil uprisings, attacks, volcanic eruptions, tsunamis, storms, earthquakes, loss of Internet connection, etc.

However, if the suspension lasts for more than one (1) month, each Party reserves the right to terminate these Standard Terms, as of right, without any entitlement to compensation and without any prior notice, after sending notice of termination by registered post with acknowledgement of receipt.

16. GDPR - Personal Data Protection

16.1. Consent to the Collection and Processing of Personal Data

By signing these Standard Terms, the Customer agrees to the collection and processing of the Customer's personal data for the purposes of the Service signed up for under this Contract.

The Customer authorises Alwaysdata to process that data in accordance with applicable statutory, regulatory and EU provisions, in particular the GDPR and the non-conflicting provisions of the French Data Protection Act.

In accordance with article 24 of the GDPR, each Party is treated as the Data Controller whenever it determines the purposes and means of the processing.

Accordingly, taking into account the nature, scope, context and purposes of the processing as well as the risks of varying likelihood and severity for the rights and freedoms of natural persons, each Party shall implement appropriate technical and organisational measures within the meaning of Article 24 of the GDPR, to ensure and to be able to demonstrate that its processing is performed in accordance with the GDPR. Those measures shall be reviewed and updated where necessary.

Where proportionate in relation to processing activities, the measures referred to in the previous paragraph shall include the implementation of appropriate data protection policies by the Data Controller.

Adherence to approved codes of conduct as referred to in Article 40 of the GDPR or approved certification mechanisms as referred to in Article 42 of the GDPR may be used as an element by which to demonstrate compliance with the obligations of the Data Controller.

16.3. Data Security

Each Party shall take all steps required under Article 32 of the GDPR (“Security of Processing”) to protect the security and confidentiality of the Personal Data it processes and, in particular, shall implement technical and organisational measures to ensure a level of security appropriate to the risk, taking into account the state of the art, the costs of implementation and the nature, scope, context and purposes of the processing as well as the risk of varying likelihood and severity for the rights and freedoms of natural persons.

Those technical and organisational measures may include inter alia as appropriate:

- a. The pseudonymisation and encryption of personal data;
- b. The ability to ensure the ongoing confidentiality, integrity, availability and resilience of processing systems and services;
- c. The ability to restore the availability and access to personal data in a timely manner in the event of a physical or technical incident;
- d. A process for regularly testing, assessing and evaluating the effectiveness of technical and organisational measures for ensuring the security of the processing.

Adherence to an approved code of conduct as referred to in Article 40 of the GDPR or an approved certification mechanism as referred to in Article 42 of the GDPR may be used as an element by which to demonstrate compliance with the requirements set out in this Clause 16.3.

16.4. Non-Transfer of Data Principle

Without prejudice to the provisions of Clause 16.5 hereof, Alwaysdata will not disclose or communicate any personal data to third parties without the Customer’s explicit consent. However, Alwaysdata may be released from this requirement if it is required to make such a disclosure or communication by law or if it is convinced, in utmost good faith, that such an action is required.

16.5. Limited transfer, for the requirements of the Service

The Customer agrees that Alwaysdata may transfer its/his/her personal data, for the purposes of the performance of the Service, to Alwaysdata's partners located within the European Union and to the call centre used by Alwaysdata to receive telephone calls from Customers, also located within the European Union.

16.6. Rights of the data subjects

Pursuant to Regulation (EU) No. 2016/679 of the European Parliament and of the Council of 27 April 2016 (hereinafter the "**GDPR**") and the provisions (other than those conflicting with the said Regulation) of French Data Protection Act No. 78-17 of 6 January 1978 as subsequently amended (hereinafter the "**French Data Protection Act**"), the Customer has the right to object to the collection and processing of the Customer's personal data, a right to request access to that data, the right to request the rectification or erasure of it (right to be forgotten), the right not to be subject to a decision based solely on automated processing, including profiling, the right to request a restriction of processing for the processing of the Customer's personal data, the right to obtain information on the persons to whom the data controller has transferred the Customer's personal data, and the right to data portability, as those rights are described in Articles 15 to 22 of the GDPR. The Customer may exercise those rights by sending a request to dpo@alwaysdata.com with the required supporting documents, in particular proof of the Customer's identity and the subject of his request.

17. Subcontracting clauses

17.1. Subcontracting between the Customer and third parties

If the Customer allows third parties to benefit from all or part of the Services, the provisions of these Standard Terms and the Special Terms applicable to the relevant Service will be fully binding on and enforceable against those third parties, but they will not be entitled to rely on them against Alwaysdata.

17.2. Subcontracting between the Customer (in its/his/her capacity as the data Controller) and Alwaysdata (in its capacity as the data Processor)

Pursuant to Clause 17.2, the Customer is the data controller as defined in the GDPR and Regulation (EU) 2018/1725 of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, offices and agencies and on the free movement of such data (hereafter "**Regulation 2018/1725**") and Alwaysdata is the data processor as defined by the said regulations, for all personal data processed by Alwaysdata on behalf of the Customer under the terms of this Contract and the applicable Special Conditions.

However, the GDPR and Regulation 2018/1725 require that processing by a processor shall be governed by a contract or other legal act containing the provisions provided for in their Articles 28 and 29 (art. 28-3° of the GDPR and art. 29-3° of Regulation 2018/1725).

In accordance with Commission implementation Decision (EU) 2021/915 of 04 June 2021 relating to standard contractual clauses between controllers and processors, taken pursuant to the aforementioned Articles 28 and 29, Alwaysdata has formalized in the clauses 17.2.1 to 17.2.10 hereafter the requirements applicable to the contractual relations between Alwaysdata and each of its Customers and processors.

These clauses complement the other contractual documents entered into between Alwaysdata and its customers and/or processors, as well as the document formalizing Alwaysdata's personal data protection policy.

17.2.1. Purpose and scope

- (a) The purpose of these Standard Contractual Clauses (the Clauses) is to ensure compliance with Article 28(3) and (4) of the GDPR and/or Article 29(3) and (4) of Regulation 2018/1725.
- (b) The controllers and processors listed in Annex II have agreed to these Clauses in order to ensure compliance with Article 28(3) and (4) of Regulation (EU) 2016/679 and/or Article 29(3) and (4) of Regulation (EU) 2018/1725.
- (c) These Clauses apply to the processing of personal data as specified in Annex III.
- (d) Annexes II to V are an integral part of the Clauses.
- (e) These Clauses are without prejudice to obligations to which the controller is subject by virtue of Regulation (EU) 2016/679 and/or Regulation (EU) 2018/1725.
- (f) These Clauses do not by themselves ensure compliance with obligations related to international transfers in accordance with Chapter V of Regulation (EU) 2016/679 and/or Regulation (EU) 2018/1725.

17.2.2. Invariability of the Clauses

- (a) The Parties undertake not to modify the Clauses, except for adding information to the Annexes or updating information in them.
- (b) This does not prevent the Parties from including the standard contractual clauses laid down in these Clauses in a broader contract, or from adding other clauses or additional safeguards provided that they do not directly or indirectly contradict the Clauses or detract from the fundamental rights or freedoms of data subjects.

17.2.3. Interpretation

- (a) Where these Clauses use the terms defined in Regulation (EU) 2016/679 or Regulation (EU) 2018/1725 respectively, those terms shall have the same meaning as in that Regulation.
- (b) These Clauses shall be read and interpreted in the light of the provisions of Regulation (EU) 2016/679 or Regulation (EU) 2018/1725 respectively.
- (c) These Clauses shall not be interpreted in a way that runs counter to the rights and obligations provided for in Regulation (EU) 2016/679 / Regulation (EU) 2018/1725 or in a way that prejudices the fundamental rights or freedoms of the data subjects.

17.2.4. Hierarchy

In the event of a contradiction between these Clauses and the provisions of related agreements between the Parties existing at the time when these Clauses are agreed or entered into thereafter, these Clauses shall prevail.

17.2.5. Docking clause

- (a) Any entity that is not a Party to these Clauses may, with the agreement of all the Parties, accede to these Clauses at any time as a controller or a processor by completing the Annexes and signing Annex II.
- (b) Once the Annexes in (a) are completed and signed, the acceding entity shall be treated as a Party to these Clauses

and have the rights and obligations of a controller or a processor, in accordance with its designation in Annex II.

- (c) The acceding entity shall have no rights or obligations resulting from these Clauses from the period prior to becoming a Party.

17.2.6. Description of processing(s)

The details of the processing operations, in particular the categories of personal data and the purposes of processing for which the personal data is processed on behalf of the controller, are specified in Annex III.

17.2.7. Obligations of the Parties

17.2.7.1 Instructions

- (a) The processor shall process personal data only on documented instructions from the controller, unless required to do so by Union or Member State law to which the processor is subject. In this case, the processor shall inform the controller of that legal requirement before processing, unless the law prohibits this on important grounds of public interest. Subsequent instructions may also be given by the controller throughout the duration of the processing of personal data. These instructions shall always be documented.
- (b) The processor shall immediately inform the controller if, in the processor's opinion, instructions given by the controller infringe Regulation (EU) 2016/679 / Regulation (EU) 2018/1725 or the applicable Union or Member State data protection provisions.

17.2.7.2 Purpose limitation

The processor shall process the personal data only for the specific purpose(s) of the processing, as set out in Annex III, unless it receives further instructions from the controller.

17.2.7.3 Duration of the processing of personal data

Processing by the processor shall only take place for the duration specified in Annex III.

17.2.7.4 Security of processing

- (a) The processor shall at least implement the technical and organisational measures specified in Annex IV to ensure the security of the personal data. This includes protecting the data against a breach of security leading to accidental or unlawful destruction, loss, alteration, unauthorised disclosure or access to the data (personal data breach). In assessing the appropriate level of security, the Parties shall take due account of the state of the art, the costs of implementation, the nature, scope, context and purposes of processing and the risks involved for the data subjects.
- (b) The processor shall grant access to the personal data undergoing processing to members of its personnel only to the extent strictly necessary for implementing, managing and monitoring of the contract. The processor shall ensure that persons authorised to process the personal data received have committed themselves to confidentiality or are under an appropriate statutory obligation of confidentiality.

17.2.7.5 Sensitive data

If the processing involves personal data revealing racial or ethnic origin, political opinions, religious or philosophical beliefs, or trade union membership, genetic data or biometric data for the purpose of uniquely

identifying a natural person, data concerning health or a person's sex life or sexual orientation, or data relating to criminal convictions and offences ("sensitive data"), the processor shall apply specific restrictions and/or additional safeguards.

17.2.7.6 Documentation and compliance

- (a) The Parties shall be able to demonstrate compliance with these Clauses.
- (b) The processor shall deal promptly and adequately with inquiries from the controller about the processing of data in accordance with these Clauses.
- (c) The processor shall make available to the controller all information necessary to demonstrate compliance with the obligations that are set out in these Clauses and stem directly from Regulation (EU) 2016/679 and/or Regulation (EU) 2018/1725. At the controller's request, the processor shall also permit and contribute to audits of the processing activities covered by these Clauses, at reasonable intervals or if there are indications of non-compliance. In deciding on a review or an audit, the controller may take into account relevant certifications held by the processor.
- (d) The controller may choose to conduct the audit by itself or mandate an independent auditor. Audits may also include inspections at the premises or physical facilities of the processor and shall, where appropriate, be carried out with reasonable notice.
- (e) The Parties shall make the information referred to in this Clause, including the results of any audits, available to the competent supervisory authority/ies on request.

17.2.7.7 Use of sub-processors

- (a) **OPTION 2: GENERAL WRITTEN AUTHORISATION:** The processor has the controller's general authorisation for the engagement of sub-processors from an agreed list (Annex V). The processor shall specifically inform in writing the controller of any intended changes of that list through the addition or replacement of sub-processors at least one (1) month in advance, thereby giving the controller sufficient time to be able to object to such changes prior to the engagement of the concerned sub-processor(s). The processor shall provide the controller with the information necessary to enable the controller to exercise the right to object.
- (b) Where the processor engages a sub-processor for carrying out specific processing activities (on behalf of the controller), it shall do so by way of a contract which imposes on the sub-processor, in substance, the same data protection obligations as the ones imposed on the data processor in accordance with these Clauses. The processor shall ensure that the sub-processor complies with the obligations to which the processor is subject pursuant to these Clauses and to Regulation (EU) 2016/679 and/or Regulation (EU) 2018/1725.
- (c) At the controller's request, the processor shall provide a copy of such a sub-processor agreement and any subsequent amendments to the controller. To the extent necessary to protect business secret or other confidential information, including personal data, the processor may redact the text of the agreement prior to sharing the copy.
- (d) The processor shall remain fully responsible to the controller for the performance of the sub-processor's obligations in accordance with its contract with the processor. The processor shall notify the controller of any failure by the sub-processor to fulfil its contractual obligations.
- (e) The processor shall agree a third party beneficiary clause with the sub-processor whereby - in the event the processor has factually disappeared, ceased to exist in law or has become insolvent - the controller shall have the right to terminate the sub-processor contract and to instruct the sub-processor to erase or return the

personal data.

17.2.7.8 International transfers

- (a) Any transfer of data to a third country or an international organisation by the processor shall be done only on the basis of documented instructions from the controller or in order to fulfil a specific requirement under Union or Member State law to which the processor is subject and shall take place in compliance with Chapter V of Regulation (EU) 2016/679 or Regulation (EU) 2018/1725.
- (b) The controller agrees that where the processor engages a sub-processor in accordance with Clause 7.7. for carrying out specific processing activities (on behalf of the controller) and those processing activities involve a transfer of personal data within the meaning of Chapter V of Regulation (EU) 2016/679, the processor and the sub-processor can ensure compliance with Chapter V of Regulation (EU) 2016/679 by using standard contractual clauses adopted by the Commission in accordance with of Article 46(2) of Regulation (EU) 2016/679, provided the conditions for the use of those standard contractual clauses are met.

17.2.8. Assistance to the controller

- (a) The processor shall promptly notify the controller of any request it has received from the data subject. It shall not respond to the request itself, unless authorised to do so by the controller.
- (b) The processor shall assist the controller in fulfilling its obligations to respond to data subjects' requests to exercise their rights, taking into account the nature of the processing. In fulfilling its obligations in accordance with (a) and (b), the processor shall comply with the controller's instructions
- (c) In addition to the processor's obligation to assist the controller pursuant to Clause 8(b), the processor shall furthermore assist the controller in ensuring compliance with the following obligations, taking into account the nature of the data processing and the information available to the processor:
 - (1) the obligation to carry out an assessment of the impact of the envisaged processing operations on the protection of personal data (a 'data protection impact assessment') where a type of processing is likely to result in a high risk to the rights and freedoms of natural persons;
 - (2) the obligation to consult the competent supervisory authority/ies prior to processing where a data protection impact assessment indicates that the processing would result in a high risk in the absence of measures taken by the controller to mitigate the risk;
 - (3) the obligation to ensure that personal data is accurate and up to date, by informing the controller without delay if the processor becomes aware that the personal data it is processing is inaccurate or has become outdated;
 - (4) the obligations in Article 32 of Regulation (EU) 2016/679 and/or Articles 33 and 36 to 38 of Regulation (EU) 2018/1725.
- (d) The Parties shall set out in Annex IV the appropriate technical and organisational measures by which the processor is required to assist the controller in the application of this Clause as well as the scope and the extent of the assistance required.
